# Total Safety Management Program

*Have you ever.....*

*....worried IF you were complying with the latest safety laws & regulations?*

*....had trouble keeping up with the ever changing safety laws & regulations?*

*....wondered IF you could survive an OSHA inspection?*

*....wondered IF your safety manual is in compliance?*

*....wished you could reduce your Workers' Compensation costs?*

*....wondered how you can prevent employee, visitor, and contractor accidents AND potential lawsuits?*

LAAP is an innovative safety, security, and quality management and consulting firm providing comprehensive services to numerous clients in a variety of industries. We specialize in safety, security, and quality consulting, auditing, training, and program development, assisting today's business community in meeting the ever changing regulations enacted by municipal, State, and Federal governmental agencies. Our comprehensive **Total Safety Management™** program will assist in developing AND maintaining your safety program in compliance with Federal, State, and local safety laws and requirements. Led by Pat Patterson, CSP, LAAP has over 75 years combined experience to provide clients the expertise and quality service they expect and deserve.

Our **Total Safety Management™** program includes the following, and MUCH more:

- I. Development of Company Safety Manual in compliance with OSHA and Workers Compensation rules and regulations
- II. Establishment, review, and maintain Client's OSHA Record Keeping Program
  - a. Accident/Injury Files; OSHA 300 & 300A
  - b. Safety training files
  - c. Safety audit files
  - d. Accident analysis & trending
- III. Conduct monthly employee safety meetings
- IV. Maintain ISN and PICS accounts
- V. Conduct monthly facility safety audits
- VI. On-Call Availability for OSHA Inspections, Regulatory Audits, Consultation, and Investigation of Major Accidents/Incidents
